ABSTRACT

This report from the Children's Defense Fund lists statistics on child and youth well-being for each of the states and the United States as a whole. Statistics are provided in the following categories: (1) children participating in federally subsidized programs (including Title 1 Education for the Disadvantaged, bilingual education programs, Individuals with Disabilities Education Act (IDEA) programs, Head Start, Supplemental Security Income, federal foster care, adoption assistance, Aid for Dependent Children; food stamps, and child support); (2) National School Lunch Program; (3) School Breakfast Program; (4) Women, Infants, and Children Food Program; and (5) Every day in [specific state], which provides statistics on infant mortality, suicide, murder, deaths by guns, prenatal care, low birth weight, teenage mothers, unmarried mothers, abuse and neglect, and health insurance. About CDF

The Children's Defense Fund (CDF) exists to provide a strong and effective voice for all the children of America, who cannot vote, lobby, or speak for themselves. We pay particular attention to the needs of poor and minority children and those with disabilities. Our goal is to educate the nation about the needs of children and encourage preventive investment in children before they get sick, drop out of school, suffer family breakdown, or get into trouble.

Our staff includes specialists in health, education, child welfare, mental health, child development, adolescent pregnancy prevention, family income, and youth employment. CDF gathers, analyzes, and disseminates information on key issues affecting children. We monitor the development and implementation of federal and state policies. We provide information, technical assistance, and support to a network of state and local child advocates, service providers, and public and private sector officials and leaders. We pursue an annual legislative agenda in the U.S. Congress and in states where we have offices. CDF educates hundreds of thousands of citizens annually about children's needs and responsible options for meeting those needs.

CDF's overarching mission is to see that no child is left behind, and that every child receives a Healthy Start, a Head Start, a Fair Start, a Safe Start, and a Moral Start in life.

CDF is a private, nonprofit organization supported by foundations, corporate grants, and individual donations.
